Skinny-Dipping at Monster Lake Bill Wallace,2014-08-12 Kent doesn't believe in monsters But he knows he saw two gleaming yellow eyes beneath the surface of Cedar Lake when he and his buddies were camping at the lake When he sneaks out alone a few nights later to investigate the eyes return and they seem to be following him Kent and his friends are determined to solve the mystery of the Cedar Lake monster But what they discover one dark summer night is just as surprising as a monster and just as dangerous **The Boys in the Cave** Matt Gutman,2018-11-13 From award winning ABC News Chief National Correspondent Matt Gutman and written using exclusive interviews and information comes the definitive account of the dramatic story that gripped the world the miracle rescue of twelve boys and their soccer coach trapped in a flooded cave miles underground for nearly three weeks a pulse pounding page turner by a reporter who was there every step of their journey out After a practice in June 2018 a Thai soccer coach took a dozen of his young players to explore a famous but flood prone cave It was one of the boys birthday but neither he nor the dozen resurfaced Worried parents and rescuers flocked to the mouth of a cave that seemed to have swallowed the boys without a trace Ranging in age from eleven to sixteen the boys were all members of the Wild Boars soccer team When water unexpectedly inundated the

cave blocking their escape they retreated deeper inside taking shelter in a side cavern While the world feared them dead the thirteen young souls survived by licking the condensation off the cave s walls meditating and huddling together for warmth In this thrilling account ABC News Chief National Correspondent Matt Gutman recounts this amazing story in depth and from every angle exploring their time in the cave the failed plans and human mistakes that nearly doomed them and the daring mission that ultimately saved them Gutman introduces the elite team of volunteer divers who risked death to execute a plan so risky that its American planners admitted for us success would have meant getting just one boy out alive He takes you inside the meetings where life and death decisions were grimly made and describes how these heroes pulled off an improbable rescue under immense pressure with the boys desperate parents and the entire world watching One of the largest rescues in history was in doubt until the very last moment Matt Gutman covered the story intensively went deep inside the caves himself and interviewed dozens of rescuers experts and eye witnessed around the world The result is this pulse pounding page turner that vividly recreates this extraordinary event in all its intensity and documents the ingenuity and sacrifice it took to succeed

Halliday,1976 [Trapped!](#) Robert K. Murray,Roger W. Brucker,2013-04-06 When Floyd Collins became trapped in a cave in southern

Kentucky in early 1925 the sensationalism and hysteria of the rescue attempt generated America's first true media spectacle making Collins's story one of the seminal events of the century. The crowds that gathered outside Sand Cave turned the rescue site into a carnival. Collins's situation was front page news throughout the country, hourly bulletins interrupted radio programs and Congress recessed to hear the latest word. Trapped is both a tense adventure and a brilliant historical recreation of the past. This new edition includes a new epilogue revealing information about the Floyd Collins story that has come to light since the book was first published.

Into the Planet Jill Heinerth, 2019-08-20 The renowned cave diver takes readers on a thrill ride into unfamiliar worlds exploring the hidden depths of our oceans and sunken caves. Publishers Weekly: More people have died exploring underwater caves than climbing Mount Everest and we know more about deep space than we do about the depths of our oceans. In this thrilling firsthand account Jill Heinerth blends science, adventure and memoir to bring readers face to face with the terror and beauty of earth's final frontier and the extremes of human capability. One of the world's foremost cave divers, Heinerth's achievements include leading a team that discovered the ancient watery remains of Mayan civilizations and becoming the first person in history to dive deep into an Antarctic iceberg. In *Into the Planet* she vividly recounts everything from discovering new species and examining our finite freshwater reserves to the prejudices women face when pursuing careers underwater.

Danger at Sand Cave Candice F. Ransom, 2000-01-01 When his friend Floyd Collins becomes trapped in a cave in Kentucky in 1925, ten year old Arly places himself in great danger while trying to help with the rescue operation.

Journey Into Terror Bill Wallace, 1996 A country kid and his half brother from the city team up and learn from each other in order to save their lives in an adventure set in rural Oklahoma.

The Great Cave Rescue James Massola, 2019-10-03 First came the awful news that 12 boys and their football coach were missing. Then came the flickering video of the boys found by a pair of British divers, nine days later. Monsoon rains had raised the water level in the cave system and they were trapped in an air pocket surrounded by rising muddy water over two kilometres from the cave entrance. Expert British, Australian, American, Chinese and other international divers joined the Thai Navy SEALs and

hundreds of local volunteers to mount one of the most risky and complex rescue operations the world has ever seen South east Asia correspondent James Massola recreates the drama tension and inspiration of the days in July 2018 when the eyes of the whole world were trained on a remote Thai mountain Very little information about what happened inside the cave was released by the Thai authorities at the time but through interviews Massola has managed to obtain extensive details of the nine long days the Wild Boars were on their own and during the rescue operation itself as well as background information about the boys and coach He writes about the pivotal role of the British Cave Rescue Council in leading the international effort and determining the technical aspects of the rescue He reveals how the Thai British US Australian and other international divers worked together so smoothly when even a minor miscommunication could have resulted in death or serious injury And most dramatically he discloses the number of instances in which the rescue operation nearly went wrong
